1 Foreword

SL/T 816-2021 was issued by Ministry of Water Resources on 1 August 2025 and has been in force since 1 November 2025.

It is one of 3 parts of the SL/T 816 series.

The SL/T prefix marks a recommended standard. It is not law in itself: it becomes binding when a contract names it, when a regulation or a mandatory standard refers to it, or when a producer declares conformity with it.

2 Scope Preview

This standard specifies requirements for water conservancy electronic license systems, related services, electronic seal integration, network connectivity, security protection technologies, and template management. It applies to the Ministry of Water Resources (including its headquarters and river basin management agencies) and provincial water administrative authorities regarding the construction, maintenance, and use of water conservancy electronic license systems, as well as the issuance and application of such

licenses.

SL/T 816-2021 falls under ICS 35.240.99, in the field of information technology.

This catalogue holds 9 other SL/T standards in that field.

In this catalogue, SL/T standards carry edition years from 1994 to 2026.

3 About this standard

Sector: Water Resources Industry Standard (Recommended)

Issued by: Ministry of Water Resources

English translation: about 17 pages (approximate)

Chinese original: about 25,245 characters

4 Related standards
