Foreword

SN/T 1603 "Importers audio, video and similar electronic equipment for the inspection," is divided into seven sections.

- Part 1. General requirements;
- Part 2. Plasma televisions and projection televisions;
- Part 3. video game consoles and audio-video teaching equipment;
- Part 4. disc player;
- Part 5. LCD TV;
- Part 6. STB energy efficiency;
- Part 7. CD player.

This section SN/T 1603 Part 1.

This section drafted in accordance with GB/T 1.1-2009 given rules.

The partial replacement of SN/T 1603.1-2005 "import and export audio, video and similar electronic equipment testing procedures - Part 1. General requirements." this section compared with the SN/T 1603.1-2005, the main technical changes are as follows.

- Standard structure, format, chapter choreography, performed a number of changes;
- Corresponding to the standard preface has been modified;
- Increased inspection and supervision model and content inspection methods, and clearly specifies the requirements for different test methods of test items its corresponding test methods;
- Increased electromagnetic compatibility, environmental testing requirements;
- Inspection requirements and content in accordance with the current version of GB 8898

have been adjusted.

Please note that some of the content of this document may involve patents. Release mechanism of the present document does not assume responsibility for the identification of these patents.

This section proposed and managed by the National Certification and Accreditation Administration Committee.

Introduction

"Importers and audio, video and similar electronic equipment testing procedures - Part 1. General requirements" is import and export audio, video and similar electronic equipment inspection work in accordance with the import and export audio and video and similar electronic test equipment and specifications play a guiding role.

Repair With China joining the World Trade Organization (WTO) and the "People's Republic of China Import and Export Commodity Inspection Law" and its implementing regulations Custom, import and export commodity inspection pattern has undergone great changes. In order to meet changes in the form, the state department in charge of inspection and quarantine organizations Inspection and quarantine standards.

This part belongs to the inspection and quarantine standards on the third floor --- categories of common standards, the provisions of the import and export of audio and video and similar electronic equipment seized General Requirements for inspection.

Import and export audio, video and similar electronic equipment for the inspection Part 1. General requirements

1 Scope

SN/T 1603 provisions of this part of the sample import and export audio, video and similar electronic equipment, inspection and judgment.

This section applies to a design by the power grid or power supply equipment, destined for respectively receiving, production, recording or playback of audio, visual Frequency signals and associated electronic equipment, also applies to equipment designed (hereinafter referred to as audio and video equipment) and specialized equipment used in combination of the above Import and export inspection.

For the above design by non-grid power supply or power supply equipment, containing a laser system or internal operating voltage greater than 4000V peak Equipment, where applicable, may be employed in this section.
