This section drafted by. Shenzhen Entry-Exit Inspection and Quarantine Bureau.

Introduction

"Import and Export Audio Video and Similar Electronic Equipment Inspection Regulations" is the basis for the work of import and export audio and video and similar electronic inspection.

Audiovisual and similar electronic equipment inspections serve as a guide and specification.

With the revision of China's accession to the World Trade Organization (WTO) and the "Commodity Inspection Law," the import and export commodity inspection work model has undergone great changes.

In order to adapt to the situation and changes, the national inspection and quarantine authorities have established a system of inspection and quarantine standards.

This part belongs to the fourth layer of the inspection and quarantine standard system---personality standard, which is aimed at the characteristics of video game

machines and audio and video teaching equipment.

It has set special requirements for the inspection of import and export video game machines and audio and video teaching equipment.
