Foreword

SN/T 1603 "Importers audio, video and similar electronic equipment for the inspection," is divided into seven sections.

- Part 1. General requirements;
- Part 2. Plasma televisions and projection televisions;
- Part 3. video game consoles and audio-video teaching equipment;
- Part 4. disc player;
- Part 5. LCD TV;
- Part 6. STB energy efficiency;
- Part 7. CD player.

This section SN/T 1603 Part 4.

This section drafted in accordance with GB/T 1.1-2009 given rules.

The partial replacement of SN/T 0809.1-1999 "export VCD disc machine inspection of safety requirements", SN/T 0809.2-1999 "out Mouth VCD disc machine technical performance test procedures ", SN/T 1603.4-2005" import and export audio, video and similar electronic equipment for the inspection of the first Part 4. DVD video disc special requirements. " this section as compared with the standard, the main technical changes are as follows.

- Integrate the above three criteria, covering technical performance and safety

requirements of import and export inspection video disc player;

--- Redefined the scope of inspection, sampling, qualified and valid criticism given deal with nonconforming batches;

--- Increasing the overall requirements.

This section proposed and managed by the National Certification and Accreditation Administration Committee.

Introduction

"Importers and audio, video and similar electronic equipment for the inspection," the import and export audio, video and similar electronic devices based on the work of inspection, the intake Export audio, video and similar electronic test equipment and specifications play a guiding role.

With China's accession to the World Trade Organization (WTO) and the revised "People's Republic of China Import and Export Commodity Inspection Law" Import and Export Commodity Inspection Test mode has undergone great changes, and changes in order to adapt to the situation, the state department in charge of inspection and quarantine inspection and quarantine standards organization established system.

This part belongs to the standard system of inspection and quarantine fourth floor --- personality, with special inspection requirements for the characteristics of the video disc player predetermined.

Import and export audio, video and similar electronic equipment for the inspection Part 4. disc player

1 Scope

SN/T 1603 provisions of this part of the sampling, testing and conformity determination import and export disc player.

This section applies to the power grid or power supply equipment, the rated voltage does not exceed import and export inspection disc machine to 250V.

This section does not apply to the import and export inspection vehicle disc player.

2 Normative references

The following documents for the application of this document is essential. For dated references, only the dated version suitable for use herein Member. For undated references, the latest edition (including any amendments) applies to this document.
