### Foreword

SN/T 1603 "Importers audio, video and similar electronic equipment for the inspection," is divided into seven sections.

- Part 1. General requirements;
- Part 2. Plasma televisions and projection televisions;
- Part 3. video game consoles and audio-video teaching equipment;
- Part 4. disc player;
- Part 5. LCD TV;
- Part 6. STB energy efficiency;
- Part 7. CD player.

This section SN/T 1603 Part 7.

This section drafted in accordance with GB/T 1.1-2009 given rules.

The partial replacement of SN/T 0730.1-1997 "Importers CD player safety requirements for the inspection", SN/T 0730.2-1997 "out CD player port inspection of technical performance." this section as compared with the standard, the main technical changes are as follows.

- Integration of these two criteria, covering the import and export CD player safety requirements and technical performance of the test;

--- Redefined the scope of inspection, sampling, qualified criticism given;

--- Increasing the overall requirements, disposal and validity substandard batches.

This section proposed and managed by the National Certification and Accreditation Administration Committee.

## Introduction

"Importers and audio, video and similar electronic equipment for the inspection," the import and export audio, video and similar electronic devices based on the work of inspection, the intake Export audio, video and similar electronic test equipment and specifications play a guiding role.

With China's accession to the World Trade Organization (WTO) and the revised "People's Republic of China Import and Export Commodity Inspection Law" Import and Export Commodity Inspection Test mode has undergone great changes, and changes in order to adapt to the situation, the state department in charge of inspection and quarantine inspection and quarantine standards organization established system.

This part belongs to the standard system of inspection and quarantine fourth floor --- personality, with special inspection requirements for the CD player features specified.

Import and export audio, video and similar electronic equipment for the inspection Part 7.  
CD player

## 1 Scope

SN/T 1603 provisions of this part of the import and export CD player sampling, testing and conformity determination.

This section applies to the power grid or power supply equipment, import and export inspection rms voltage does not exceed 600V in the CD player.

## 2 Normative references

The following documents for the application of this document is essential. For dated references, only the dated version suitable for use herein Member. For undated references, the latest edition (including any amendments) applies to this document.

GB/T 2828.1 Sampling procedures for inspection - Part 1. by acceptance quality limit (AQL) retrieval batch inspection sampling plan GB 8898-2001 Audio, video and similar electronic apparatus - Safety requirements GB 13837 Sound and television broadcast receivers and associated equipment - Radio disturbance characteristics - Limits and methods of measurement the basic provisions of SN/T 0002 Electromechanical Import and Export Commodity Inspection procedures prepared SN/T 1603.1 and export audio, video and

### **3 Terms and Definitions**

GB 8988-2001, SN/T 0002, SN/T 1603.1 and SN/T 2838.2 Definition of terms and definitions apply to this document.

#### **4.1 Safety Requirements**

CD player safety requirements should meet the requirements of GB 8898-2001, and should be considered applicable to the use of national (regional) differences.

#### **4.2 Electromagnetic compatibility requirements**

EMC requirements CD player should meet the requirements of GB 13837, and should be considered applicable to the use of national differences (region).

#### **4.3 Other Requirements**

Where applicable, shall comply with the use of national (regional) technical regulations on laser disc player, environmental protection, energy efficiency, and performance requirements.

#### **5.1 Mode Select inspection and supervision**

CD player mode of inspection and supervision should be in accordance with relevant state regulations, as the case may select sampling mode, type test mode, character Co-verification mode one.
