SN

**INDUSTRY STANDARD OF THE
PEOPLE'S REPUBLIC OF CHINA**

SN/T 1649-2012

Replacing SN/T 1649-2005; SN/T 1903-2007

**Rules for inspection on import and export textiles safety
specification
(English Translation)**

Issued on: January 1, 1970

Implemented on: January 1, 1970

Issued by: General Administration of Customs

Table of Contents

Introduction

1 Scope

2 Normative references

3 Terms and definitions

4 Requires

5 Test methods

6 Inspection rules

7 Test report

Appendix A (informative) Region of textiles and its annex safety project properties list section

Appendix B (normative) Part Region Formaldehyde in Textiles limited requirements and test methods

Annex C (normative) Textiles biodegradable carcinogenic aromatic amine dyes limited requirements and test methods - Part 17 Region

Annex D (normative) Part Region Textiles extractable heavy metals and heavy metal and the total content limit requirement

Test Method

Appendix E (normative) in some countries or regions containing chlorophenols and other textile limited requirements and test methods

Annex F (normative) textiles limited requirements of organic tin compounds and methods of test Region

Annex G (normative) in some countries or regions textile limited requirements containing bromine or chlorine flame retardant finishing and test methods

Annex H (normative) limit requirement in some countries or regions in textiles, PVC and phthalates plasticizers

And test methods

Annex I (normative) Textiles limited requirements and test methods for pesticides in some countries or regions

Appendix J (normative) Part Region flame retardant textile limited requirements and test methods

Annex K (normative) Part Region textile color fastness requirements and test methods

Annex L (normative) Part Region textile needle requirements and test methods

Annex M (normative) Part Region textile fiber content identification and test methods

Annex N (normative) Symbols and program section Textile Care Region identified, conformity assessment and test methods

Appendix O (normative) limit requirement in some countries or regions textiles pH value of 50 and test methods

Appendix P (normative) limit requirement textiles and methods of test PAHs in Region

Appendix Q (normative) Part Region textiles alkyl phenols and alkyl phenol polyoxyethylene ethers Limited

Requirements and test methods

Appendix R (normative) in some countries or regions textile PFOS and PFOA limited requirements and test

Methods

Limited requirements and test methods Appendix S (normative) Part Region textiles dimethyl fumarate

Appendix T (normative) Part Region triclosan textiles limited requirements and test methods

Appendix U (normative) limit requirement in some countries or regions asbestos fibers and test methods

Appendix V (normative) Part Region SCCP limited requirements and test methods

Requirements Appendix W (normative) Part Region Children's clothing rope, small parts and test methods

Listing Appendix X (normative) and the textile industry-related hazardous substances

Appendix Y (informative) and the textile industry relevant international standards, standardization industry organizations (including regions, etc.) Name, Code

Foreword

This standard was drafted in accordance with GB/T 1.1-2009 given rules.

Instead of the standard SN/T 1649-2005 "project import and export textile safety inspection norms" and SN/T 1903-2007 "Textile Import and Export Heavy metal fabric inspection standard. " this standard SN/T 1649-2005 based, integrated SN/T 1903-2007 part of the SN/T 1649-2005 phase Ratio, in addition to editorial changes outside the main technical changes are as follows.

a) Table of Contents.

--- Added Appendix Appendix O ~ W section Region textile PH value, polycyclic aromatic hydrocarbons, alkyl phenols and benzenes Phenol polyoxyethylene ethers, PFOS and PFOA, dimethyl fumarate, triclosan, asbestos fibers, short-chain chlorinated Requirements and test methods paraffin, children's clothing, rope, small parts of a total of nine appendices.

--- The Appendices Appendix R N ~ merged into the list in Appendix X and textile industry-related toxic substances.

--- Increase the list of textiles and its annex Region Safety Project Properties Appendix A (informative) section.

b) amend the foreword

c) Remove the Introduction

d) Normative references file.

--- Modify the introductory phrase.

--- Remove the original series relates to textile fiber content identification and care identified references, the associated increase SN/T 2872-2011 "identifies the textile export inspection norms", SN/T 3337 "Importers textile fiber content set Quantitative test specifications" reference standard.

--- Increase (in place) involving formaldehyde in textiles, flame retardant, washing powder, banned azo dyes, heavy metals, pesticides, carcinogenic dye Materials, allergenic disperse dyes, chlorinated benzene and chlorinated toluene, organic tin compounds, o-phenylphenol, rope children's clothing, infant Children sleeping bags, alkyl phenols and polyoxyethylene alkyl phenol ethers, 4-amino-azobenzene, needle type and forbidden/restricted retardant Determination of agents and other total 39 national standards.

--- Increased textile polycyclic aromatic hydrocarbons, dimethyl fumarate, alkyl phenols and polyoxyethylene alkyl phenol ether, perfluorooctane Sulfonic acid and perfluorooctanoic acid industry standard measurement of inspection and quarantine a total of 11.

--- Increasing the ISO 4045, ISO 105-C10:2006, ISO 13877, ISO 18287, EPA8100, USEPA Relevant international standards 8061A, ASTM D3421-GC-MSD, DIN10955 and a total of 41.

e) Terms and Definitions Increased regulatory requirements of 3.3 and 3.4 non-regulatory requirements two terms.

f) requirements

--- According to GB 18401-2010 5 Revision 4.1 technical content.

--- To claim 4, has been re-edited, revised the original 4.2. 4.3.1 ~ ~ 4.3.9, 4.3.12 4.3.19 (17) Regulations and test methods and 4.4.1 - 4.4.15 (15) non-regulatory limit requirements and test methods of limited demand. increased List of hazardous substances and the textile industry-related 4.5, 4.6 and textile industry relevant international standards, industry standardization Organizations (including regions, etc.) and code name.

g) the results of determination Referring to GB 18401-2010 7.4 Revision 6.2 and 7.5 technical content.

h) Appendix

--- Increase the list of textiles and its annex Region Safety Project Properties Appendix A (informative) section.

--- Added Appendix Appendix O ~ W section Region textiles pH value, polycyclic aromatic hydrocarbons, alkyl phenols and alkylphenols Polyoxyethylene ethers, PFOS and PFOA, dimethyl fumarate, triclosan, asbestos fibers, short-chain chlorinated Wax, children's clothing, rope, requirements and test methods widgets totaling nine.

--- Remove the original appendix Europe and Japan limited color fastness relevant indicators and the main content, increasing the color fastness Canada Related Defining indicators and main content.

i) Appendix X Listing reclassified. Original pesticides, chlorinated benzene and chlorinated organic compounds and prohibit the use of toluene series Flame retardants increase the content of the list, increasing the plasticizer X.6PVC table, table X.9 polycyclic aromatic hydrocarbons (PAHs) and Table X.10 high of substances of concern (SVHCs) list.

j) the original table S.1 Y.1 split into tables and tables Y.2. The header table Y.1 amended as follows. part of the international standards and related to the textile industry the name and code; new tables Y.2 head for the table. Some international standardization organizations and industry related to the textile industry (including area, etc.) name and said code. Two tables were in alphabetical order, a total increase of 36 international standardization organizations trade name and code.

This standard is proposed and managed by the National Certification and Accreditation Administration Committee.

This standard was drafted. Jiangxi People's Republic of China Entry-Exit Inspection and Quarantine of Jilin People's Republic of China Bureau, People's Republic of China Shanghai Entry-Exit Inspection and Quarantine of Guangdong People's Republic of China, People's Republic of China Shenzhen Entry-Exit Inspection and Quarantine Tianjin People's Republic of China, Jiangyin City, Jiangsu Province Pine Textile Co., Ltd., Exit Inspection and Quarantine of the People's Republic of Shandong.

1 Scope

This standard specifies the technical requirements, test methods and inspection rules for import and export of textiles basic safety projects, and gives additional security Define indicators of the project and the main content.

This standard applies to textile import and export inspection and safety program.

2 Normative references

The following documents for the application of this document is essential. For dated references, only the dated version suitable for use herein Member. For undated references,
