Foreword

SN/T 1688 "Importers motor vehicle inspection procedures" is divided into six parts.

- Part 1. General requirements;
- Part 2. Motorcycle;
- Part 3. farm vehicles;
- Part 4. automotive products;
- Part 5. electric motorcycles and electric mopeds;
- Part 6. engine.

This section SN/T 1688 Part 6.

This section drafted in accordance with GB/T 1.1-2009 given rules.

This section proposed and managed by the National Certification and Accreditation Administration Committee.

Introduction

"Importers and inspection of motor vehicles - Part 6. engine" is the vehicle engine and export inspection work in accordance with the import and export car Engine testing and specification play a guiding role.

With China's accession to the World Trade Organization (WTO) and the "People's Republic of China Import and Export Commodity Inspection Law" and its implementing regulations amended Import and Export Commodity Inspection mode has undergone great changes, the state inspection and quarantine departments in charge of the establishment of a system of inspection and quarantine standards.

This part belongs to the inspection and quarantine standards of the fourth layer (mechanical and electrical test Standard System Layer) --- personalized standard specifies

access Port vehicle engine inspection requirements. Part 4 of this chapter is to formulate the relevant requirements of the content of the mandatory requirements of the relevant national standards and regulations as the basis.

Import and export inspection of motor vehicles Part 6. Engine

1 Scope

SN/T 1688 provisions of this part of the vehicle engine technology import and export requirements, test methods, sampling and qualified judgment.

This section applies to the inclusion of "CIQ inspection and quarantine of import and export goods catalog" (hereinafter referred to as the directory) of Vehicle Engines and cars by the relevant provisions should be implemented random inspection of engines, for liquid fuel engine (gasoline, diesel), including Compression ignition engines and spark ignition engines, does not apply to natural gas engines and hybrid engines.

2 Normative references

The following documents for the application of this document is essential. For dated references, only the dated version suitable for use herein Member. For undated references, the latest edition (including any amendments) applies to this document.
