Foreword

SN/T 1733 "Non-Genuine Steel Inspection and Identification Regulations" is divided into 11 parts.

- Part 1. Slab;
- Part 2. color coated board;
- Part 3. Billet/round billet;
- Part 4. Wire rod;
- Part 5. Profiles;
- Part 6. Pipe;
- Part 7. Stainless steel plate (belt);
- Part 8. Tin-plated steel sheet;
- Part 9. Galvanized steel sheets and strips;
- Part 10. Cold rolled steel sheets and strips;
- Part 11. Hot rolled steel sheets and strips.

This part is the 11th part of SN/T 1733 "Non-Quality Steel Inspection and Identification Regulations".

Appendix A of this section is a normative appendix, and Appendix B is an informative appendix.

This part is proposed and managed by the National Certification and Accreditation Administration.

This section drafted by. Guangdong Entry-Exit Inspection and Quarantine Bureau of the People's Republic of China, Jiangsu Entry and Exit Inspection and Quarantine Bureau,

Shandong Entry-Exit Inspection and Quarantine Bureau of the People's Republic of China, Shenzhen Entry-Exit Inspection and Quarantine Bureau of the People's Republic of China, Shanghai Entry-Exit Inspection and Quarantine Bureau, Zhejiang Entry-Exit Inspection and Quarantine Bureau of the People's Republic of China, and Tianjin Entry-Exit Inspection Epidemic situation.

1 Scope

This part specifies the definition, technical requirements, inspection and identification rules and test results of non-genuine hot-rolled steel sheets and strips.

This section applies to the inspection and identification of hot-rolled steel sheets and strips such as non-genuine hot-rolled steel sheets and strips and primary residuals. Not applicable to non-positive Special steel plates for hot-rolled pressure vessel steel plates, automotive steel plates, and steel plates for containers.

2 Normative references

The terms in the following documents become the terms of this section by reference in this section. All dated references, followed by all Modifications (not including errata content) or revisions do not apply to this section, however, parties to agreements based on this section are encouraged to study if it is possible to use the latest version of these files? For undated references, the latest edition applies to this section.

GB/T 710 high quality carbon structural steel hot rolled steel sheet and strip GB/T 711 high quality carbon structural steel hot rolled thick steel plate and wide steel strip GB/T 912 carbon structural steel and low alloy structural steel hot rolled steel sheet and strip GB/T 3274 carbon structural steel and low alloy structural steel hot rolled thick steel plate and steel strip GB/T 3524 carbon structural steel and low alloy structural steel hot rolled steel strip GB/T 8749 high quality carbon structural steel hot rolled steel strip

3 Terms and definitions

The following terms and definitions apply to this section.

Dimensions, shapes, appearance, physical and chemical properties, packaging, etc. meet the contractual standards (see Appendix A) or GB/T 710, GB/T 711, Hot-rolled steel sheets and strips specified in GB/T 912, GB/T 3274, GB/T 3524, and GB/T 8749 standards.

Refers to the size, shape, surface quality, physical and chemical properties, some or all of the packaging does not meet the corresponding standard requirements, but the product remains Hot rolled steel sheets and strips for general purpose use.

Trade is accustomed to calling it "secondary".

Refers to the long production time, the different production time of various materials and

various specifications accumulated after the contract production and delivery, different batches Hot rolled steel sheets and strips for secondary products.

There are serious defects in the arrival, scraps that cannot be directly used, or hot-rolled steel sheets and strips that can only be used for smelting recovery.

4 Technical requirements

4.1

The specifications, appearance, physical and chemical properties, packaging, etc. of genuine hot-rolled steel sheets and steel strips are in compliance with the contractual standards.
