What this standard covers

This standard specifies the inductively coupled plasma atomic emission spectrometry in the import and export of wood and wood products as arsenic, chromium, copper approach. This standard applies to wood and wood products import and export of arsenic, chromium, copper determination. Determination of arsenic range: 20. 0mg/kg ~ 2000mg/kg, chromium, copper measuring range: 10. 0mg/kg ~ 2000mg/kg.

Document data

International classification (ICS): 79-010.

Chinese classification (CCS): B60.

Estimated length of the Chinese original: 7,732 words.
