What this standard covers

This standard specifies the electrical and electronic products polymeric materials polybrominated biphenyls and polybrominated diphenyl ethers Fourier transform infrared spectroscopy (FT-IR) qualitative screening methods. This standard applies to electrical and electronic products polymeric materials polybrominated biphenyls and polybrominated diphenyl ethers infrared qualitative screening.

Document data

International classification (ICS): 31.020.

Chinese classification (CCS): L04.

Estimated length of the Chinese original: 15,159 words.
