What this standard covers

This standard specifies the alternative test medium with 95% ethanol and iso-octane measurement and fatty food contact plastics in the overall migration approach. This standard applies to contact with fatty foods all forms of plastic products.

Document data

International classification (ICS): 67.250.

Chinese classification (CCS): X08.

Estimated length of the Chinese original: 10,118 words.

Adopted international standard: BS EN 1186-14-2002, IDT.
