Foreword

SN/T 2360 to our GB 2760 Hygienic standards for uses of food additives and other relevant regulations, standards-based, China is now the reference Some Joint Expert Committee of the State, industry and enterprise standards for food additives, food additives (JECFA) standards for food additives, as well as the United States Series of test procedures developed countries, Japan and the European Union and other countries, food additives standards and test technical standards.

SN/T 2360 "for the inspection of import and export food additives," consists of the following components.

- Part 1. General;
- Part 2. acidity regulator;
- Part 3. anti-caking agent;
- Part 4. defoamers;
- Part 5. antioxidants;
- Part 6. bleach;
- Part 7. leavening agent;
- Part 8. candy gum base agent substances and ingredients;
- Part 9. colorants;
- Part 10. color fixative;
- Part 11. emulsifier;
- Part 12. enzymes;
- Part 13. flavor enhancers;

- Part 14. flour treatment agent;
- Part 15. Coating agent;
- Part 16. water retention agent;
- Part 17. Nutrition Enhancer;
- Part 18. preservatives;
- Part 19. stability and coagulant;
- Part 20. sweeteners;
- Part 21. thickener;
- Part 22. flavors and fragrances;
- Part 23. Compound food additives;
- Part 24. Specific use of food additives;
- Part 25. Food processing aids.

This section is Part 24 SN/T 2360's.

This section proposed and managed by the National Certification and Accreditation Administration Committee.

1 Scope

This section SN/T 2360 provisions beyond the scope of GB 2760 and GB 14880 standards, but with the food additive property and quality requirements, in line with food additive provisions and requirements of specific countries or regions, only for production, processing and import and export trade as samples, etc.

Scope of additive use, inspection, supervision and management, inspection, determination and disposal results of inspection and quarantine work norm.

This section applies to exceed GB 2760 and GB 14880 and in accordance with the provisions of the variety the finished state of the following conditions of the following materials.

- a) Fanxiao exit and enter the country or region in line with the requirements of the feed additives used only for processing or after;
- b) After all the re-exported or destroyed Exhibitor additive sample;
- c) for non-food industrial uses (including research, administrative examination and approval, etc.) additive samples.

This section does not apply to the following materials.

- a) for the production of raw materials and precursors and synthetic food additives;
Natural plant and animal raw materials, b) for the production and extraction of food additives;
- c) belonging to GB 2760 and GB 14880 a predetermined range of non-food grade material;
- d) production and manufacture of foodstuffs and food raw materials;
- e) chemical illegally added to food products;
- f) exemption of statutory and regulatory requirements.

2 Normative references

The following documents contain provisions which, through reference SN/T 2360 and become part of the provisions of this section. For dated references, all subsequent amendments (not including errata content) or revisions do not apply to this section. However, encouraged to reach agreement under this section all parties that proposed to use the latest versions of these documents. For undated reference documents, the latest versions apply to this section.
