What this standard covers

This standard specifies the electrical and electronic products triclosan polymer material monobutyltin (MBT), dibutyltin dichloride (DBT), tributyltin chloride (TBT) and triphenyltin chloride (TPhT) gas chromatography flame photometric detector (GC-FPD) method. This standard applies to electrical and electronic products triclosan single polymer material, dibutyltin dichloride, dibutyltin chloride, tributyltin and triphenyltin chloride determination.

Document data

International classification (ICS): 31.020.

Chinese classification (CCS): L04.

Estimated length of the Chinese original: 8,816 words.
