What this standard covers

This standard specifies the gravimetric determination of acid grade and ceramic grade fluorspar content in flotation method. This standard applies to the production of flotation flotation agent content of greater than or equal to 0. 002% (mass fraction) of fluorspar (dry).

Document data

International classification (ICS): 73.080.

Chinese classification (CCS): D52.

Estimated length of the Chinese original: 5,590 words.

Adopted international standard: ISO 3703-1993, IDT.
