What this standard covers

This standard specifies the food contact material polymethyl methacrylate food simulants UV absorbance method. This standard applies to poly (methyl methacrylate) in food simulants UV absorbance measurement.

Document data

International classification (ICS): 67.250.

Chinese classification (CCS): X08.

Estimated length of the Chinese original: 8,825 words.

Adopted international standard: FDA 177.1010, MOD.
