What this standard covers

This standard specifies the wavelength dispersive X-ray fluorescence spectrometry of rare earth ferrosilicon manganese, silicon, aluminum, calcium, titanium approach. This standard applies to import and export of rare earth ferrosilicon manganese, silicon, aluminum, calcium, titanium determination. Linear range of the standard curve are shown in Table 1.

Document data

International classification (ICS): 77.100.

Chinese classification (CCS): H11.

Estimated length of the Chinese original: 9,946 words.
