What this standard covers

This standard specifies the detection of cholera toxin producing food for export *Vibrio cholerae* loop-mediated isothermal nucleic acid amplification (LAMP) method. This section applies to producing food for export *Vibrio cholerae* cholera toxin screening test.

Document data

International classification (ICS): 07.100.30.

Chinese classification (CCS): C53.

Estimated length of the Chinese original: 8,860 words.
