What this standard covers

This standard specifies the wavelength dispersive X-ray fluorescence spectrometric method for multi-component nickel laterite ore. This section applies to the determination of nickel laterite in a variety of ingredients. Measuring range (mass fraction) are shown in Table I.

Document data

International classification (ICS): 73.060.99.

Chinese classification (CCS): D40.

Estimated length of the Chinese original: 11,198 words.
