What this standard covers

This standard specifies the polystyrene and its products in toluene, ethylbenzene, propyl benzene, cumene, styrene, gas chromatography method of total volatile substances. This standard applies to polystyrene and its products in toluene, ethylbenzene, propyl benzene, cumene, styrene, Determination of total volatile substances. This standard toluene, ethylbenzene, propyl benzene, cumene, styrene limit of determination are 200mg/kg.

Document data

International classification (ICS): 67.250.

Chinese classification (CCS): X08.

Estimated length of the Chinese original: 10,180 words.
