What this standard covers

This standard specifies the export of rare earth ferrosilicon magnesium silicon, X-ray fluorescence spectrometric method for titanium content, aluminum, calcium, iron, phosphorus, chromium. This standard applies to rare earth ferrosilicon magnesium silicon, Determination of titanium content, aluminum, calcium, iron, phosphorus, chromium. Measurement range of each element are shown in Table 1.

Document data

International classification (ICS): 77.120.99.

Chinese classification (CCS): H65.

Estimated length of the Chinese original: 8,811 words.
