What this standard covers

This standard specifies the polyvinylidene chloride type polymer materials for food contact materials vinylidene chloride monomer gas chromatography detection methods. This standard applies to polyvinylidene chloride resins and their products from food contact materials Determination of vinylidene chloride monomer. This standard measurement of vinylidene chloride lower limit 3mg/kg.

Document data

International classification (ICS): 67.250.

Chinese classification (CCS): X08.

Estimated length of the Chinese original: 7,774 words.
