What this standard covers

This standard specifies the polyvinyl chloride (PVC) polymer materials like food contact materials tricresyl phosphate residues HPLC method. This standard applies to PVC resin and its products in food contact materials tricresyl phosphate residues. PVC polymer materials like food contact materials tricresyl lower limit of the determination of 50mg/kg.

Document data

International classification (ICS): 67.250.

Chinese classification (CCS): X08.

Estimated length of the Chinese original: 8,862 words.
