Foreword

1 Scope

2 Methods Summary

Foreword

SN/T 3083 "Globally Harmonized System of Classification and Labelling (GHS)" is divided into five parts.

--- Part 1. Definitions and abbreviations;

Comprehensibility testing methodology labels and safety data sheets;. -- Part 2

--- Part 3. Classification of metals and metal compounds;

--- Part 4. metals and metal compounds are dissolved and conversion processes in aquatic medium;

--- Part 5. comprehensibility testing methods.

This section SN/T 3083 Part 2.

This section drafted in accordance with GB/T 1.1-2009 given rules.

This section proposed and managed by the National Certification and Accreditation Administration Committee.

1 Scope

SN/T 3083 provisions of this part of the Globally Harmonized System of Classification and Labelling (GHS) labels and safety data sheets available Comprehension test methods.

This section applies to the Globally Harmonized System of Classification and Labelling (GHS) labels and safety data sheets intelligibility test Evaluation.

2 Methods Summary

2.1

into a number of modules. Detailed description of the usage of each module in Appendix A. Under normal circumstances, the present method package it includes the following five components.

a) Module 1 (core modules). its main purpose is to ensure that the module 2 to 11, the method used for a variety of different cultures and backgrounds.

This module is recommended (see Table 1) in all categories of target groups, but its culture is different from the development and security tag number According to background single workers and members of the community groups, should be the first to use this module.

b) Modules 2 to 8. These include a general questionnaire (module 2) and a set of label and Safety Data Sheet questions and exercises (modules 3 to 8). According to the survey whether the object is a worker, whether to use the Safety Data Sheet, some elements of these modules may not apply.

c) Module 9. This is a simulation exercise. Intended for the workers, for the production of the vast majority of people in the field.

d) Module 10. includes a final test after the questionnaire. It applies to the questionnaire (modules 2-8) and simulation exercises (module 9) all participants. Participants (block 11) can also be used to group exercises. The questionnaire is focused on training and past experience, and provide opportunities for people to make the testing process without any feedback and comments restrictions.

e) Module 11. This is a group exercise for workers to use. It absorbed all the elements of the above modules, aimed at group learning Test understandability. Its purpose is to complement Modules 2 to 10, but the test object with the module 1 to module 9 is different.

2.2

Recommendation 1 month and 12 months after comprehensibility testing, follow-up testing. This test should be used to test for the first time to participate in the test the subjects repeated. Repeat the test for understanding the risk of retention of the contact information and real benefits.
