Foreword

Accordance with the standards GB/T 1.1-2009 given rules drafted in line with SN/T 2494-2010 requirements.

This standard 4.2,4.3,4.4,4.5 and 4.6 are mandatory, others are recommended.

Please note that some of the content of this document may involve patents. Release mechanism of the present document does not assume responsibility for the identification of these patents.

This standard is proposed and managed by the National Certification and Accreditation Administration Committee.

This standard was drafted. People's Republic of China, Xiamen Entry-Exit Inspection and Quarantine Fujian People's Republic of China Bureau, People's Republic of China Jiangsu Entry-Exit Inspection and Quarantine Bureau.

1 Scope

This standard specifies the safety of imported electrical appliances old electrical and electronic products, machinery safety, electromagnetic compatibility, environmental protection, energy efficiency, etc.

General technical requirements for inspection.

This standard applies to the following for the use of domestic sales of old electrical and electronic products.

--- Large household appliances;

--- Small household appliances;

--- Information and communications products;

--- Audio and video products;

---Lighting Products;
