### What this standard covers

This standard specifies the food contact materials acrylonitrile - butadiene - styrene copolymer (ABS), polyethylene terephthalate polymer (PET), ethylene vinyl acetate co-matter (EVA) and its products play an extract of non- chloroform soluble extract its determination thereof. This standard applies to the determination of food contact materials ABS, PET, EVA and its products Nonvolatile chloroform extract soluble extract.

### Document data

International classification (ICS): 67.25.

Chinese classification (CCS): X08.

Estimated length of the Chinese original: 12,174 words.
