Some elements of this document may involve patents. Release mechanism of the present document does not assume responsibility for the identification of these patents.

This standard is proposed and managed by the National Certification and Accreditation Administration Committee.

### 1 Scope

This standard specifies the conditions under container transport, export calcium carbide recycled packaging drums (volume  $\leq 450\text{L}$ ) requirements, performance test and make the method of identification used.

This standard applies to container transport under the conditions of export calcium carbide recycled packaging drums.

### 2 Normative references

The following documents for the application of this document is essential. For dated references, only the dated version suitable for use herein Member. For undated references, the latest edition (including any amendments) applies to this document.

GB/T 325 (all parts) packaging container drums GB/T 2828.1 Sampling test sample sequence - Part 1. by acceptance quality limit (AQL) retrieval batch inspection sampling plan GB/T 4857.3 Basic tests for transport packages - Part 3. Test methods for stacking static load GB/T 4857.5 packaging transport package drop test methods GB/T 17344 Test Method for airtight packaging containers GB 19270-2009 waterway transport of dangerous

goods packaging inspection and safety regulations About Recommendations on the Transport of Dangerous Goods Model Regulations (UN, 16th Revision)

### 3 Terms and Definitions

The following terms and definitions apply to this document.

Airtight seal hermeticallysealed Vapor impermeable seal.

Recycled packaging recyclepackaging can recycling of packaging.

Single package singlepackaging in use, having dressed functional package does not require any packaging.

Recycled packaging remanufacturedpackaging UN type from a non-UN type into restructuring or restructuring from one UN type to another UN type, or replace the entire knot Structure components (for example. inactive lid) and a packaging made of.

### 4 Requirements

#### 4.1

as a single package deal for the transport of calcium carbide prepared recycled packaging drums inspection, testing and performance testing including the use of identification.
