Foreword

SN/T 3241 "export of household and similar electrical appliances test technical requirements" is divided into seven sections.

--- Part 1. AC electric fans energy efficiency;

--- Part 2. Auto sheet pan electric energy efficiency;

--- Part 3. refrigerator energy efficiency;

--- Part 4. room air conditioner energy efficiency;

--- Part 5. cookers energy efficiency;

--- Part 6. dishwashers energy efficiency;

--- Part 7. storage-type electric water heater energy efficiency.

This section SN/T 3241 Part 6.

This section drafted in accordance with GB/T 1.1-2009 given rules.

Please note that some of the content of this document may involve patents. Release mechanism of the present document does not assume responsibility for the identification of these patents.

This section proposed and managed by the National Certification and Accreditation Administration Committee.

1 Scope

SN/T 3241 provisions of this part of the export of household and similar energy-efficient dishwasher technical requirements, sampling, test methods and acceptance determination.

This section applies to the power supply from the mains voltage, rated voltage not exceeding 250V household and similar purposes using cold and/or hot water Dishwasher.
