1 Foreword

SN/T 3657-2013 was issued by General Administration of Customs on 30 August 2013 and has been in force since 1 March 2014.

The SN/T prefix marks a recommended standard. It is not law in itself: it becomes binding when a contract names it, when a regulation or a mandatory standard refers to it, or when a producer declares conformity with it.

The document runs to 8 pages in English translation.

2 Scope Preview

This standard specifies the test equipment, test procedures and test reports dangerous detonator sensitivity. This standard applies to determine the sensitivity of the material to
