Foreword

SN/T 3701 "imported old mechanical and electrical product testing technical requirements" is divided into three parts.

- Part 1. continuous freight elevators and conveyors;
- Part 2. Leather and leather treatment, processing, production machines;
- Part 3. electroplating, electrolysis or electrophoresis equipment and installations.

This section SN/T 3701 Part 1.

This section drafted in accordance with GB/T 1.1-2009 given rules.

This section proposed and managed by the National Certification and Accreditation Administration Committee.

1 Scope

This section SN/T 3701 provides for the import of used continuous freight elevators and conveyors (HS coded as 842832-842839 under electromechanical Product) technical inspection requirements.

This section applies to the import of used continuous freight elevators and conveyors test.

2 Normative references

The following documents for the application of this document is essential. For dated references, only the dated version suitable for use herein Member. For undated references, the latest edition (including any amendments) applies to this document.

GB 2894 Safety Signs and use guidelines Determination of sound power levels of noise sources reflecting plane free field engineering method GB/T 3767 sound pressure GB/T

3768 Determination of sound pressure of sound power levels of noise sources using an enveloping surface reflectance measuring surface Simple Method GB 5226.1-2008 Safety of machinery - Electrical machinery and electrical equipment - Part 1. General requirements GB/T 10595-2009 Belt GB 12348 industrial enterprises of environmental noise emission standard plant boundary GB/T 13306 signs GB 14784-1993 belt conveyor safety norms GB 18209.1 Electrical safety of machinery - Indication, marking and actuation - Part 1. Requirements for visual, auditory and tactile signals GB 18613 small and medium three-phase asynchronous motor energy efficiency limit value and energy efficiency rating JB/T 7012-2008 roller conveyor

3 Terms and Definitions

GB 5226.1-2008 defined and the following terms and definitions apply to this document.

Continuous freight elevators and conveyors the continuous wagon elevator or conveyor for the continuous delivery of goods horizontal conveyor, inclined conveyor, vertical conveyor, as well as their transport means combined with each other, hereinafter Said conveyor.

4.1 General requirements

Conveyor should comply with Chinese laws and administrative regulations (see Appendix A) and technical specifications of safety, health, environmental protection, energy efficiency Mandatory requirement, meet the technical performance requirements, the contract shall comply with the requirements of the contract. Conveyors also with relevant state regulations, into Mouth old mechanical and electrical products for the record and technical documents consistent.
