Foreword

SN/T 3701 "imported old mechanical and electrical product testing technical requirements" is divided into three parts.

- Part 1. continuous freight elevators and conveyors;
- Part 2. Leather and leather treatment, processing, production machines;
- Part 3. electroplating, electrolysis or electrophoresis equipment and installations.

This section SN/T 3701 Part 2.

This section drafted in accordance with GB/T 1.1-2009 given rules.

Please note that some of the content of this document may involve patents. Release mechanism of the present document does not assume responsibility for the identification of these patents.

This section proposed and managed by the National Certification and Accreditation Administration Committee.

This part of the People's Republic of China Zhejiang Exit Inspection and Quarantine is responsible for drafting.

1 Scope

This section SN/T 3701 provides for the import of used leather and leather processing,, production technical requirements of the machine.

This section applies to imports of old leather and leather processing,, production machines testing.

2 Normative references

The following documents for the application of this document is essential. For dated references, only the dated version suitable for use herein Member. For undated references, the latest edition (including any amendments) applies to this document.

GB/T 3766-2001 Hydraulic System General technical conditions GB 5083-1999 General production equipment with safety and health GB 5226.1-2008 Safety of machinery - Electrical machinery and electrical equipment - Part 1. General requirements GB 8978-1996 Integrated Wastewater Discharge Standard GB/T 9969-2008 General Industrial Product Manual GB/T 12801 General requirements for the production process safety and health GB 16754 Safety of machinery - Emergency stop design principles GB 18209.2-2010 Electrical safety of machinery - Indication, marking and actuation - Part 2. Requirements for marking GB 18613 small and medium three-phase asynchronous motor energy efficiency limit value and energy efficiency rating GB Z2.1 hazardous industrial sites Occupational Exposure Limits for chemical harmful factors

3 Terms and Definitions

GB/T 3766-2001, GB 5083-1999, GB 5226.1-2008, GB 8978-1996, GB/T 9969-2008, GB/T 12801, GB 16754, GB 18209.2-2010, GB 18613, GB Z2.1 define the following terms and definitions apply this document.

Leather and leather treatment, processing, production machines leatherhandling, processing, manufacturingmachines it refers to all kinds of machinery in the leather, fur tanning products processing and the production process used, including mechanical equipment, auxiliary machinery and equipment and testing instruments.

4.1 General requirements

Imported old leather and leather processing,, production machines should comply with Chinese laws and administrative regulations (see Appendix A) safety and technical specifications Full, environmental protection, energy efficiency, health mandatory. Technical performance and other projects, the contract shall conform to the requirements of the contract.
