4.1 General requirements

Foreword

SN/T 3701 "imported old mechanical and electrical product testing technical requirements" is divided into three parts.

--- Part 1. continuous freight elevators and conveyors;

--- Part 2. Leather and leather treatment, processing, production machines;

--- Part 3. electroplating, electrolysis or electrophoresis equipment and installations.

This section SN/T 3701 Part 3.

This section drafted in accordance with GB/T 1.1-2009 given rules.

This section proposed and managed by the National Certification and Accreditation Administration Committee.

1 Scope

This section SN/T 3701 specifies the technical requirements for inspection of imported old electroplating, electrolysis or electrophoresis equipment and apparatus.

This section applies to import inspection old electroplating, electrolysis or electrophoresis equipment and apparatus.

2 Normative references

The following documents for the application of this document is essential. For dated references, only the dated version suitable for use herein Member. For undated references, the latest edition (including any amendments) applies to this document.

GB 5083-1999 General production equipment with safety and health GB 5226.1-2008 Safety of machinery - Electrical machinery and electrical equipment - Part 1. General

requirements GB 17888.1-2008 Safety of machinery into the machine stationary facilities - Part 1. enter a fixed means of access between two levels s Choice GB 17888.2-2008 Safety of machinery stationary facilities - Part 2. Working platforms and gangways GB 17888.3-2008 Safety of machinery stationary facilities - Part 3. Stairs, steps and guardrails GB 18209.2-2010 Electrical safety of machinery - Indication, marking and actuation - Part 2. Requirements for marking GB 19998-2005 electrochemical machining tool safety technical requirements

3 Terms and Definitions

GB 5083-1999, GB 5226.1-2008, GB 17888.1-2008, GB 17888.2-2008, GB 17888.3-2008, GB 19998-2005 and GB 18209.2-2010 defined and the following terms and definitions apply to this document.

Plating equipment electroplatingequipments HS Code 8543, the use of electrolysis make metal or other material parts surface adhesion of a metal film equipment.

Electrolysis equipment electrolysisequipments HS Code 8543, the current through the electrolyte solution or the molten substance (electrolyte) caused by oxidation on the cathode and anode further Original response equipment.

Electrophoresis equipment electrophoresisequipments HS Code 8543, the use of electrophoresis to make material separation, purification equipment for painting and other substances or processes.

4.1 General requirements

Import of used electroplating, electrolysis or electrophoresis equipment and devices should comply with Chinese laws and administrative regulations (see Appendix A) safety and technical specifications,
