Foreword

SN/T 3719 "Textile Industry Import and Export Inspection equipment technical requirements" is divided into two parts.

--- Part 1. chemical fiber equipment;

--- Part 2. wool textile equipment.

This section SN/T 3719 Part 1.

This standard was drafted in accordance with GB/T 1.1-2009 given rules.

Please note that some of the content of this document may involve patents. Release mechanism of the present document does not assume responsibility for the identification of these patents.

This standard is proposed and managed by the National Certification and Accreditation Administration Committee.

This standard by the People's Republic of China Shandong CIQ is responsible for drafting.

1 Scope

SN/T 3719 provisions of this part of the textile industry, import and export of complete sets of equipment chemical equipment (hereinafter referred to as chemical fiber equipment) inspection skills requirement.

This section applies to 3.1 defined, A test chemical equipment listed in Appendix, outside the above range can refer to chemical fiber equipment use.

2 Normative references

The following documents for the application of this document is essential. For dated references, only the dated version suitable for use herein Member. For undated references, the latest edition (including any amendments) applies to this document.

GB 150 (all parts) pressure vessel GB 2894 Safety Signs and use guidelines GB 12348 industrial enterprises of environmental noise emission standard plant boundary GB/T 14039-2002 Hydraulic fluid level of contamination by solid particles SN/T 3700-2013 Equipment Import and Export Inspection General technical requirements State Administration of Quality Supervision, Inspection and Quarantine, "Safety Technology Supervision of Stationary Pressure Vessels"

3 Terms and Definitions

GB 150, GB 2894, GB 12348 and SN/T 3700-2013 and defined the following terms and definitions apply to this document.

Chemical fiber equipment Composed according to a certain process requirements, capable of producing, manufacturing, processing, chemical fiber finished or semi-professional equipment, and combinations thereof. This Some professional equipment, and combinations thereof with the overall process indicators, technical parameters, and (or) performance.

4.1 General requirements

It should comply with SN/T 3700-2013 4.1.

4.2.1 Mechanical safety requirements

4.2.1.1

fiber equipment mechanical safety requirements shall comply with SN/T 3700-2013 4.2.2.

4.2.1.2

The machine should be running smoothly, oiled, no abnormal impact sounds.
