Table of Contents

Preface
1 Scope
2 Normative references
3 Terms and definitions
4 Specifications, dimensions and basic parameters required
5 Safety and environmental performance requirements
6 Physical and mechanical performance requirements
7 Harmful chemicals limited requirements
8 Tread wear indicator
9 Appearance quality requirements
10 Tire marking requirements
Appendix A (normative) tire speed and the maximum speed symbol correspondence table
Appendix B (normative) load index (LI) and tire load capacity (TLCC) correspondence table
Annex C (informative) Technical Standards of tires
Annex D (informative) The main exporting country or region, the International Organization for Standardization tire main technical regulations and standards

Foreword

This standard was drafted in accordance with GB/T 1.1-2009 given rules.

This standard is proposed and managed by the National Certification and Accreditation Administration Committee.

This standard was drafted. People's Republic of China Shandong Entry-Exit Inspection and Quarantine of Liaoning People's Republic of China Bureau of Shenzhen Inspection and Quarantine Science Research Institute, Xiamen People's Republic of China Exit Inspection and Quarantine, People's Republic of China Henan Entry Inspection and Quarantine Bureau, People's Republic of China Jiangsu Entry-Exit Inspection and Quarantine Tianjin People's Republic of China, the Chinese people Zhejiang People's Republic of Exit Inspection and Quarantine.

1 Scope

This standard specifies the general technical requirements for the import and export of tire products.

This standard applies to passenger cars, trucks, motorcycles, agricultural, construction machinery, industrial vehicles, power cars and other pneumatic tire and pneumatic tire Inner tube.

This standard does not apply to retreaded tires and used tires.

2 Normative references

The following documents for the application of this document is essential. For dated references, only the dated version suitable for use herein Member. For undated references, the latest edition (including any amendments) applies to this document.

GB 518-2007 motorcycle tires GB/T 519 pneumatic tire physical performance test method GB/T 521 tire peripheral dimensions measuring method GB/T 528 Determination of vulcanized rubber or thermoplastic rubber tensile stress-strain properties GB/T 531.1 vulcanized rubber or thermoplastic rubber hardness test pushed Part 1. Shore hardness method (Shore hardness) Determination of GB/T 532 vulcanized rubber or thermoplastic rubber and fabric adhesive strength GB/T 1190-2009 OTR tire technical requirements GB/T 1192-2008 agricultural tires and technical conditions GB/T 1689 Determination of abrasion resistance of vulcanized rubber (in Akron machine) GB/T 1702-2008 in car tires GB/T 1703-2008 force car tire GB/T 2977 truck tire specifications, size, pressure and load GB/T 2978 car tire specifications, size, pressure and load GB/T 2979 agricultural tire specifications, size, pressure and load GB/T 2980 OTR tire specifications, size, pressure and load GB/T 2981-2001 industrial vehicles pneumatic tire technical requirements GB/T 2982 industrial vehicles pneumatic tire specifications, size, pressure and load GB/T 2983 series of motorcycle tires GB/T 4501 truck tire performance indoor test methods GB/T 4502 Car tire performance indoor test methods GB/T 6326 tires terms and definitions GB 7036.1-2009 pneumatic tires - Part 1. automobile tires GB 7036.2-2007 pneumatic tires - Part 2. motorcycle tires GB/T 7377 in car tire series GB 9743-2007 Car tires GB 9744-2007 truck tires GB/T 9749 CAR tire performance test methods
