Foreword

SN/T 3981 "Textiles Import and Export Quality Conformity Assessment Method textile materials" is divided into 15 parts.

- Part 1. cotton;
- Part 2. Class silk raw silk;
- Part 3. Dried silkworm;
- Part 4. double Palace silk;
- Part 5. Class silk silk;
- Part 6. tussah silk;
- Part 7. Class twisting silk yarn;
- Part 8. wool;
- Part 9. special animal hair;
- Part 10. cashmere;
- Part 11. hemp fiber;
- Part 12. synthetic fibers;
- Part 13. rayon;
- Part 14. recycled fibers;
- Part 15. Other fiber.

This section SN/T Section 13981 of.

This section drafted in accordance with GB/T 1.1-2009 given rules.

The partial replacement of SN/T 2138.2-2010 "the inspection of import and export of textile raw materials plant fiber cotton." this section compared with the SN/T 2138.2, in addition to editorial changes outside the main technical changes are as follows.

--- Standard name amended to "the quality of textile export textile raw materials conformity assessment methods - Part 1. cotton";

--- Range is adjusted to the import and export of cotton textile raw materials, including. Upland (Upland and serrated processing roller processing Upland), cotton Upland cotton and natural color, the quality of conformity assessment requirements, procedures, contents, methods and the results of the determination and reporting;

--- Modify the contents of the term portion;

--- Original standard format, normative references have been adjusted;

--- Increased conformity assessment requirements;

--- Modify the conformity assessment procedures;

--- Modify the conformity assessment results to determine the provisions;

--- Increase the informative Appendix A cotton major international standards, national standards, industry standards and industry rules, informative Appendix D out Mouth cotton quality compliance evaluation report format.

This section proposed and managed by the National Certification and Accreditation Administration Committee.

1 Scope

SN/T 3981 provisions of this part of the import and export of cotton, including. Upland (Upland and serrated processing roller processing Upland), plush Upland cotton and natural color, the quality assessment of basic requirements, procedures, contents, methods and the results of the determination and reporting.

This section applies to conformity assessment quality cotton import and export regulations and non-regulatory requirements.

This section does not apply to the quality of import and export of cotton waste conformity assessment. Cotton waste, linters separated after mentioning the net can be used for spinning cotton fibers refer to this standard for quality in line with technical evaluation.
