Foreword

This standard was drafted in accordance with GB/T 1.1-2009 given rules.

This standard is proposed and managed by the National Certification and Accreditation Administration Committee.

This standard was drafted. People's Republic of China Shaanxi Entry-West Anhang Jie Chemical Technology Co., Ltd.

Introduction

Also known as methyl hydrazine A hydrazine, methyl amine Union, a methyl hydrazine, a toxic colorless liquid with ammonia odor, corrosive, highly flammable. Dissolved Water, ethanol, ethyl ether. Methyl Hydrazine is mainly used in organic synthesis, the production of pesticides and pharmaceutical intermediates, and also used for rocket fuel. Methyl hydrazine main to origin Jiangsu, Qinghai, Shaanxi, Hubei and other places, the main importing countries of Japan, the United States and Germany.

United Nations "on the Recommendations on the Transport of Dangerous Goods Model Regulations" (UNRTDG) of methyl hydrazine main risk is divided into 6.1 toxoid Substances, sub-divided into a dangerous Category 3 flammable liquids and corrosive substances Class 8, packing group class I, UN No. 1244.

Its vapor and air can form explosive mixtures case of fire, explosion fever burns easily. In case of dust, asbestos, wood and other osteoporotic in air Substances can be spontaneous. In case of hydrogen peroxide or oxidants such as nitric acid, also can be spontaneous. Skin contact can cause the body burns. Very toxic to aquatic organisms.

In March 2011 the State Council issued the "dangerous chemical safety regulations" [591 State Council Decree] provides for inspection and quarantine departments Responsible for the import and export of hazardous chemicals and their packaging implementation of the inspection. To ensure the effective implementation of the relevant inspection and quarantine

operations, standardize import and export Dangerous chemicals and packaging inspection and supervision work, the development of this standard.

Import and export of dangerous chemicals inspection of methyl hydrazine Warning. Use of this standard should have the relevant inspection or testing work experience and relevant qualifications. This standard does not mean all possible security issues. Users are responsible for the use of appropriate safety and health practices and to ensure compliance with relevant national regulations condition.

1 Scope

This standard specifies the import and export of methyl hydrazine and packaging requirements, testing and conformity determination and disposal.

This standard applies to the import and export of methyl hydrazine and their packaging inspection.

2 Normative references

The following documents for the application of this document is essential. For dated references, only the dated version suitable for use herein Member. For undated references, the latest edition (including any amendments) applies to this document.
