What this standard covers

This standard specifies the ethylene glycol, diethylene glycol, triethylene glycol ion chromatographic method of inorganic chlorine content. This standard applies to ethylene glycol, diethylene glycol, triethylene glycol Determination of inorganic chlorine content detection limit 0.02 mg/L.

Document data

International classification (ICS): 71.080.60.

Chinese classification (CCS): G16.

Estimated length of the Chinese original: 8,835 words.
