### What this standard covers

This standard stipulates the inspection basis, sampling, inspection items, inspection methods and test results of the import and export oil and gas pipelines. This standard applies to the inspection of welded steel pipes for two product specification levels (PSL1 and PSL2) for oil and gas transportation.

### Document data

International classification (ICS): 77.140.75.

Chinese classification (CCS): H48.

Estimated length of the Chinese original: 11,163 words.
