1 Foreword

SN/T 5884-2025 was issued by General Administration of Customs on 11 December 2025 and has been in force since 1 July 2026.

The SN/T prefix marks a recommended standard. It is not law in itself: it becomes binding when a contract names it, when a regulation or a mandatory standard refers to it, or when a producer declares conformity with it.

The document runs to 15 pages in English translation.

2 Scope Preview

This document describes a headspace gas chromatography method for the determination of sulfuryl fluoride residues in foodstuffs. This document is applicable to the determination of sulfuryl fluoride residues in foodstuffs including rice, ginger, cucumber, corn flour, walnut, raisin, cassia bark, tilapia, duck liver, beef, dried pork, milk and egg. Other foodstuffs may be determined by reference to this method.

SN/T 5884-2025 falls under ICS 67.05, in the field of food technology.

This catalogue holds 832 other SN/T standards in that field.

In this catalogue, SN/T standards carry edition years from 1991 to 2025.
