What this standard covers

This standard is applicable to the construction of natural gas purification equipment and pipeline installation projects for new construction, expansion and reconstruction. This standard does not apply to the construction of a purification plant process installation project in contact with a high hydrogen sulfide gas medium having a H₂S volume fraction greater than or equal to 5% in natural gas.

Document data

International classification (ICS): 75.200.

Chinese classification (CCS): P94.

Estimated length of the Chinese original: 110,198 words.

Supersedes the earlier edition SY/T 0460-2010.
