What this standard covers

This standard specifies the gas chromatographic determination of stable light hydrocarbon components of the analytical method. This standard applies to a constant steady light hydrocarbon determination of hydrocarbon components, are similar in composition suitable liquid hydrocarbon mixtures Determination of hydrocarbon components.

Document data

International classification (ICS): 75.080.

Chinese classification (CCS): E30;E24.

Estimated length of the Chinese original: 9,941 words.

Supersedes the earlier edition SY/T 0542-1994.
