What this standard covers

This standard specifies the minimum requirements for the external corrosion control of offshore steel fixed petroleum production structures and related oil and gas processing equipment. Fixed structures include platforms, tension leg platforms (TLPs), and underwater substrates. This standard does not include portable devices used for temporary mooring of oil production.

Document data

International classification (ICS): 75.180.10.

Chinese classification (CCS): E94.

Estimated length of the Chinese original: 35,315 words.

Adopted international standard: NACE SP 0176-2007, MOD.

Supersedes the earlier edition SY/T 10008-2010.
