What this standard covers

This standard specifies the basic requirements for oilfield crude oil stabilization and natural gas (including oilfield associated gas and gas field natural gas) light hydrocarbon recovery safety management. This standard applies to light hydrocarbon recovery units for onshore light hydrocarbon recovery plants (station).

Document data

International classification (ICS): 13.100.

Chinese classification (CCS): E09.

Estimated length of the Chinese original: 10,181 words.

Supersedes the earlier edition SY/T 6562-2011.
