when a contract names it, when a regulation or a mandatory standard refers to it, or when a producer declares conformity with it.

The document runs to 16 pages in English translation.

2 Scope Preview

This standard applies to all production facilities and produced water treatment facilities. This standard provides for the onshore oil and gas environmental protection and reliable approach for contractors and operators. Road design, construction of wells abandoned until the well field recovery operations, gas pressurized transmission or development operations. This standard does not include gas injection oil.

SY/T 6628-2005 falls under ICS 13.100, in the field of environment and health protection, safety.

This catalogue holds 24 other SY/T standards in that field.

In this catalogue, SY/T standards carry edition years from 1973 to 2025.

3 About this standard

Sector: Oil & Gas Industry Standard (Recommended)

Issued by: National Energy Administration

English translation: about 16 pages (approximate)

Chinese original: about 24,296 characters
