What this standard covers

This standard specifies the energy-saving test, evaluation indicators, and calculation methods of frequency-variable speed-adjusting drive systems. This standard is applicable to energy-saving testing and evaluation of frequency-variable speed-adjusting drive systems for oil companies using AC power supply voltages of 10 (6) kV and below.

Document data

International classification (ICS): 75.010.

Chinese classification (CCS): E01.

Estimated length of the Chinese original: 17,171 words.

Supersedes the earlier edition SY/T 6834-2011.
