What this standard covers

This standard specifies the technical requirements for technical design, navigation and positioning, data acquisition, abnormal accuracy calculation and adjustment and data submission for marine gravity and magnetic exploration. This standard applies to ocean gravity data acquisition and field data processing of marine gravity and towed magnetometers for shipborne gravimeters.

Document data

International classification (ICS): 75.180.10.

Chinese classification (CCS): E11.

Estimated length of the Chinese original: 34,374 words.

Supersedes the earlier edition SY/T 6956-2013; SY/T 6957-2013.
