1 Foreword

T/CSAE 137-2020 was issued by China Society of Automotive Engineers on 29 May 2020 and took effect the same day.

The T/CSAE prefix marks a association standard, adopted voluntarily.

The document runs to 8 pages in English translation.

2 Scope Preview

This standard specifies the waterproof sealing performance level, test methods, evaluation of test results and special requirements. This standard is applicable to the general waterproof sealing performance test and evaluation of automobile fastening points. This standard does not apply to air tightness testing.

T/CSAE 137-2020 falls under ICS 43.020, in the field of road vehicle engineering.

This catalogue holds 51 other T/CSAE standards in that field.

In this catalogue, T/CSAE standards carry edition years from 2015 to 2020.

3 Normative references

GB/T 6682

IEC 60529

4 About this standard

Issued by: China Society of Automotive Engineers

English translation: about 8 pages

Chinese original: about 12,175 characters

5 Related standards

Standards on related subjects:

QC/T 1029-2016 - Polypropylene (PP) honeycomb board products for automobiles

QC/T 797-2008 - Material identification and marking of automotive plastic, rubber and thermoplastic elastomer parts

6 Classification and status

International classification (ICS): 43.020

Chinese Standard Classification (CCS): T 40

Prefix T/CSAE: association standard, adopted voluntarily.
