What this standard covers

This standard specifies the diesel coolant chloride ion content determination principle, sampling, analytical procedures, and precision and so on. This standard applies to chloride ion content of 5mg/L ~ 150mg/L of water and coolant determination (below this range can be quantitatively measured sample added chloride ions, and then measured).

Document data

International classification (ICS): 71.040.40.

Chinese classification (CCS): S42.

Estimated length of the Chinese original: 6,625 words.
