1 Foreword

TB/T 3004-2001 was issued by National Railway Administration on 28 May 2001 and has been in force since 1 December 2001.

The TB/T prefix marks a recommended standard. It is not law in itself: it becomes binding when a contract names it, when a regulation or a mandatory standard refers to it, or when a producer declares conformity with it.

The document runs to 26 pages in English translation.

2 Scope Preview

This standard specifies the UM71 track circuit equipment, automatic block classification, technical requirements, test methods, inspection rules, marking, packaging, transport and storage. This standard applies to equipment manufacturing, inspection and maintenance.

TB/T 3004-2001 is filed under Chinese Standard Classification S63, in the field of railways.

This catalogue holds 1,254 other TB/T standards without an ICS number.

In this catalogue, TB/T standards carry edition years from 1973 to 2026.
