1 Foreword

TB/T 3041-2002 was issued by National Railway Administration on 9 February 2002 and has been in force since 1 July 2002.

The TB/T prefix marks a recommended standard. It is not law in itself: it becomes binding when a contract names it, when a regulation or a mandatory standard refers to it, or when a producer declares conformity with it.

The document runs to 12 pages in English translation.

2 Scope Preview

This standard specifies the railway freight loading reinforcement materials and devices, loading method, reinforcement methods terminology. This standard applies to rail freight loading reinforcement work of the technical management, field operations and related teaching, research and other activities.

TB/T 3041-2002 is filed under Chinese Standard Classification S04, in the field of railways.

This catalogue holds 1,254 other TB/T standards without an ICS number.

In this catalogue, TB/T standards carry edition years from 1973 to 2026.
