1 Foreword

TB/T 3114-2005 was issued by National Railway Administration on 29 March 2005 and has been in force since 1 July 2005.

The TB/T prefix marks a recommended standard. It is not law in itself: it becomes binding when a contract names it, when a regulation or a mandatory standard refers to it, or when a producer declares conformity with it.

The document runs to 10 pages in English translation.

2 Scope Preview

This standard specifies the basic requirements for cargo handling accident, procedures, projects, content and quality standards. This standard applies to national railways and handled through the national railway transport with other railroads.

TB/T 3114-2005 falls under ICS 03.220.30, in the field of services and company organization.

This catalogue holds 57 other TB/T standards in that field.

In this catalogue, TB/T standards carry edition years from 1973 to 2026.
